

# YAIR NOTKOVICH

Full-stack web developer

0555617116

[ynotkovich@gmail.com](mailto:ynotkovich@gmail.com)

## Summary

- Engineering, design and creative problem-solving have been foundations of my natural skill set from a very early age.
- For over a decade I've applied these skills in optimizing processes and developing in-house digital solutions in fast-paced, multi-project, multi-interface production environments, with extremely tight delivery deadlines and highly demanding customers from the aerospace industry.
- Driven by the passion to find the "right tool for the job" and discovering the magic of creating it myself, I was eager to acquire higher coding skills and become fully proficient in software development. This is what motivated me to take the next leap in my career path as a full-stack web developer.
- Following an extensive full-stack web development course, I am highly motivated to make an impact and deliver value. I am confident that my experience, fast and independent learning skills, and high level of interpersonal communications will serve as added value in my next position, and looking forward to all opportunities that may come.

## Tech stack

- Django, Flask, React.js, Redux.js, Node.js
- Python, JavaScript, HTML, CSS

## Transferable skills

- Project Management
- Excellent communication and collaboration in a team
- Problem solving and troubleshooting
- Fast and independent learning
- Attention to detail
- Flexible, adaptable, and coachable
- English – fluent
- Spanish – full speaking proficiency

## Work History

**OPERATIONS MANAGER**, 03/2013 - 05/2022

**Nave precision machining ltd**, Kadima, Israel

- Hands-on development of customized software solutions for optimizing production planning and scheduling processes. From requirement scoping to implementation and integration. Led to improvement of on-time deliveries from 70% to 94%, and further improvement to 100% for strategic customers.
- Developed software tools for improving collaboration and coordination across multiple cross-functional teams along the supply chain.
- Continuous optimization of day-to-day production processes by analyzing inefficiencies and their root causes and implementing elegant solutions to alleviate them.
- Planning and management of multiple projects, deadlines and interfaces and resolving ineffective practices

**PRODUCTION MANAGER**, 07/2008 - 01/2013

**Bravo**, Petach Tikva, Israel

- Managed continuous improvement initiatives to drive gains in quality, flow, and output.
- Resolved issues quickly to maintain productivity goals.
- Created streamlined production schedules and collaborated with production employees to communicate objectives and goals.

## Education

- **Full-stack Web Development**: React, Django, Redux, Flask - **John Bryce College** - Tel Aviv, 03/2022 - 09/2022
- **Mechanical Engineering** - **Afeka College of Engineering** - Tel Aviv
